TREE PLANTATION DAY BROCHURE

ref.No:YDCH/2107/2046/2023

TREE PLANTATION DAY REPORT

Date: 25th May 2023

One Student One Tree

Yogita Dental College organized a 'Tree plantation drive' on 25/5/2023, that commenced with felicitation by Our Dean and Head of Department (Periodontology), Dr. Varsha Jadhav. All undergraduate students, postgraduate students, teaching staff and non-teaching staffs planted various plants in the college sports ground to create natural mosquito repellants. Along with planting of saplings, students also brought informative posters on tree plantation and environment protection.

The very noble objective of 'Tree Plantation Program' is to save our mother nature and planet earth by plantation work for the following reasons:

- To make the students more aware of having a greener eco-system.
- To motivate students to be enthusiastic about significance of trees and plants.
- To make students understand how planting of trees and plants can have a positive impact on the climate and other environmental conditions.

It is the important duty of students to plant more trees as they are the carriers of clouds and rain. Only the nature has capacity to turn up the balance of nature to produce more and more oxygen, but it is only possible when our surroundings are full of trees and plants. This type of tree plantation program is only possible when our new generation become more sincere and active towards tree plantation program. This tree plantation makes the points of success, it is sure and certain that our mother nature will be in balance and the life of the people can be happy and prosperous. So, we should plant more and more trees and protect them for the future of new generation.
